Sustainability is key to the future of preserving and protecting large tracts of land in Africa. It is a combination of guests staying at our lodges, together with partnerships on various different levels, that enables us to pursue our vision.

– Luke Bailes
We’ve been preserving African wilderness for the past two decades. Through an exceptional safari experience with 12 award-winning lodges and camps across South Africa, Tanzania and Zimbabwe, Singita is able to partially fund the protection and preservation of over a million acres of pristine land and existing wildlife populations, as well as helping to create economic independence within local communities surrounding the reserves.

Travellers choose to stay at Singita because of the expansive space and beauty of the reserves, limited guest and vehicle numbers, extraordinarily consistent game viewing and the exceptional care that is taken of each guest during their stay. When guests depart after a Singita safari, they are transformed for life, satisfied in the knowledge that they’ve made a contribution to the legacy of Africa.
CONSERVATION AS A WAY OF LIFE

Built upon a 100-year purpose to preserve and protect African wilderness for future generations, Singita has been championing conservation in Africa from the very beginning. We achieve this with large-scale projects in wildlife management and protection, reserve and ecosystem integrity, sustainable tourism practices and community development.

Through a sustainable conservation model that helps balance tourism with conservation in all regions in which we operate, Singita’s ethos of “touching the earth lightly” is no longer just a forward-thinking principle; it is imperative to our survival, and that of the land, wildlife and communities under our care.
Inspired by the African landscape, the design, which blends nature with tech, pushes the boundaries of safari style to the limit, while delivering the same light, space, openness and connection to the earth that guests have become accustomed to. Giving guests a front row seat to the 33,000 acre concession with 13 bold, contemporary, open-plan suites suspended above the N’Wanetsi River and a private villa on the river bank, this is the Kruger like never before.
THE LEBOMBO EXPERIENCE

Accommodation
• 13 x 1-bedroom suites
• 2 x 2-bedroom suites (can accommodate up to 4 adults)
• Book both 2-bedroom suites together and enjoy the Singita Lebombo Villa experience which includes a private vehicle and staff, a shared lounge, deck, dining area, boma and swimming pool.

Exciting Activities
• Daily game drives with professional guides and trackers provide the perfect opportunity to get up close to Africa’s incredible animals.
• Afternoon drives conclude with a spot-lit evening return revealing the elusive magic of nocturnal Africa.
• For the adventurous, there are walking safaris (for guests 16 and over).
• Enjoy stargazing safaris, swimming and board games
• Visit the Singita Community Culinary School and learn about the impact of this partnership project while cooking traditional dishes with Singita chefs.

A unique game viewing experience
During your stay at Singita, you are likely to spot a great variety of wildlife, including species such as:

• leopard
• lion
• large herds of buffalo
• elephant
• Sharpe’s Grysbok
• hyena
• hippopotamus
• nyala
• cheetah
• wild dogs
• many types of birds
PREPARING FOR YOUR JOURNEY

A packing guide
Cotton clothing in neutral colours is recommended for game drives and bush walks. It is advisable to avoid white and dark colours as they tend to attract bugs. If it rains during a game drive, waterproof ponchos will be provided. No formal wear is required at any of our lodges.

Use the weather as your guide:
• October – April: Casual summer clothing (shorts and lightweight shirts) with a warm jersey or sweater for the cooler morning and evening temperatures.
• May – September: Casual lightweight clothing with a very warm parka or windbreaker jacket for the very cold mornings and nights.

To ensure a comfortable safari experience, we recommend that you bring the following:
• Comfortable walking or track shoes, or hiking boots for walks as well as sandals to wear around the lodge.
• A swimming costume or bathing suit, sun block, sun hat, sunglasses, lip balm, mosquito repellent. (Lip balm and insect repellent will be provided, but if you prefer a particular brand, you are welcome to bring it along.)
• Video camera, camera, binoculars and extra memory cards.

Health requirements
Singita Lebombo Lodge is situated in a malaria-risk area; it is therefore essential that you consult your medical practitioner regarding anti-malaria requirements prior to your visit.
**Location of Singita Kruger National Park [A]**

Singita Lebombo Lodge lies in the southeastern reaches of the Kruger National Park, on South Africa’s border with Mozambique. Situated on 33,000 acres, Singita’s concession is an isolated piece of pristine wilderness where a unique wildlife population thrives across four distinct ecological zones.

This area is especially well-known for the remarkable concentration of the ‘Big 5’ and four particularly formidable prides of lions.

**Location of Singita Lebombo Lodge [B]**

Singita Lebombo Lodge is a celebration of cutting-edge design in an African context where everything defers to nature.

This dramatic lodge offers 13 suites as well as a private villa, each of which gives guests a front row seat to the Kruger National Park with bold, contemporary, open plan suites suspended above the N’Wanetsi River. The exclusive concession lies in a richly diverse habitat, teeming with game, beneath endless African skies.

WEATHER AND TEMPERATURE

Best time to go on safari
Southern Africa is a year-round destination. Traditionally the dry winter months (April to October) are best for game viewing, due to the shorter grass, lack of foliage and the absence of water which forces the game to concentrate around the remaining sources of drinking water. Annual rainfall, usually in the form of short afternoon thunder showers that clear up within an hour, occur from December to March. Many species give birth to their young around the start of the rainy season which is when the the bush comes alive with newborn animals.
